GERMANY WANTS PEACE HITLER TELLS WORLD

DICTATOR SAYS STRENGTH LIES ONLY IN UNITY

Nazi Leader Speaks To Million Persons In Airdrome

By A. D. Stefferud
Associated Press Foreign Staff

Berlin, May 1.—(P)—Adolf Hitler told the world again today that Germany wants only peace.

A million Nazi faithful who braved high winds and thunderstorms to gather at the great Tempelhof Air-drome to attend the Capital's May Day celebration, heard Der Fuehrer, bareheaded and speaking hoarsely, interrupt his eulogy of the Nazi government:

"Our strength lies not in tanks, cannon and marching battalions, but in the unity of our people and its idealistic faith. x x x x."

What we want is not war, not unrest. Just as we restored peace within Germany, we want peace abroad, because only then can our domestic works be a success. x x x"

Earlier in the day the sun peeped through clouds lowering over Berlin and Minister of Propaganda Paul Joseph Goebbels, too optimistically, promised the nation "Hitler weather" for the festivities.

Hardly had he finished speaking when snow and rain, blown by bitter winds, again began sweeping the capital. Stormy weather prevailed all over Germany, cutting down greatly attendance at demonstrations in Hanover, Bremen, Cologne and other cities.

The Fuehrer's 1,500-word extemporaneous address, shouted over the wind's roar, drew from the chilled, wet throng below his rostrum less applause than usually greets his addresses. A battery of microphones before him carried his words to all parts of the Reich.

His theme the assertion that Germans "are one people as ordained by God" and his conclusion the declaration that "my will must be your command," the Fuehrer gave the major part of his address over to an appeal for national unity, touching not at all upon armaments and international relations.

"A great time has begun again for Germany—great tasks which are given only to a few generations," he said.

"Much has been achieved in the last three years. Before there were 6,500,000 jobs. Today there are less than 2,250,000. Think of conditions in other, much larger nations with plenty of money and raw materials and with fewer people to the square mile—they have not succeeded in doing it."

The Realm leader assured his hearers that his greatest task was to make them happy and mentioned his sacrifices to attain unity, declaring "difficulties remain to be overcome."

KANKAKEE HAS TWO FIRE DEPARTMENTS

Kankakee, Ill., May 1.—(P)—Two fire departments—but no fires—was the predicament of Kankakee today as Roy D. Taylor, Republican mayor, took office. Twenty Democratic appointees to the fire department held their ground, claiming they were under civil service and could not be replaced by political opponents.

Citizens have been reported to be waging as to which political group will put out the blaze if, when and as it occurs.

John J. Astor's
Bride To Become
Mother In August

New York, May 1.—(P)—The New York Daily News says John Jacob Astor's bride of last June expects to become a mother in August.

A suite of rooms has been reserved at Doctor's hospital for the 19-year-old wife of the Astor son, the newspaper says. Mrs. Astor is the former Ellen Tuck French.

If the newcomer is a boy, the news says he would be the logical heir apparent to the vast Astor fortune, of which Vincent Astor, an eldest son of the late Col. John Jacob Astor, is trustee.

The News estimates the fortune at between six and 100 million dollars.

FILIBUSTER ON ANTI-LYNCHING BILL SMASHED

Senate Decides To Consider Bonus Measure

By D. Harold Oliver,
Associated Press Staff Writer.

Washington, May 1.—(P)—Smarting from presidential criticism of senatorial lethargy, Democratic leaders, aided by Republicans, today flung off the Senate's anti-lynching filibuster in favor of the controversial bonus measure.

A two-hour conference of relief chieftains at the White House gave

the president much of the information for the executive orders he will issue within the next day or so setting up the allotment board, the appropriations division and the progress division.

A move to adjourn which had failed on three previous occasions, finally carried 46 to 32 after several Republicans and Democrats had rallied to the southern cause and Senator Borah, Idaho Republican independent, had assailed from the floor the constitutionality of the Costigan-Wagner measure to give the federal government power in lynching cases.

Many senators credited Borah with breaking the deadlock.

This parliamentary tactic ended a seven-day successful southern filibuster against the motion of Senator Costigan (D. Colo.), to take up the bill and Senator Wagner (D. N. Y.), have been pressing.

It automatically disposed of its calendar position Costigan's motion and shortly afterward Vice President Garner recognized Senator Harrison (D. Miss.), who proposed that the Bonus be taken up.

The motion carried without a record vote. The bonus debate, however, was put off until tomorrow because Senator Robinson, Democratic leader who had moved the temporary adjournment, decided to back away at an accumulated list of secondary bills.

The adjournment motion was supported by 43 Democrats, 4 Republicans and the Farmer-Laborite, Steppend. Fourteen Democrats, all from the north and west; 17 Republicans and the Progressive, LaFollette, answered "No."

WILL ISSUE WARRANTS

Scottsboro, Ala., May 1.—(P)—Sheriff M. C. Thomas of Jackson County, said this afternoon Mrs. Victoria Price of Huntsville, prosecutrix in the "Scottsboro Case" had arrived here accompanied by former Sheriff Ben Giles, to swear out new warrants against the nine negro defendants in the case.

KILLED BY ROBER

St. Louis, May 1.—(P)—James Vangel, restaurant manager who was shot five times early Monday by a robber who attempted to hold up the restaurant, died today of his wounds.

Vangel, 48, came here about three weeks ago from Argo, Ill., where his wife resides.

POSTMASTER RICHER

Topeka, Kas., May 1.—(P)—Postmaster John E. Barrett, no enthusiast for the send-a-dime fad, is a richer man tonight—but he's having a hard time explaining things to his employees.

Opening his mail, Barrett was startled—and so was the help—when nice new dime rolled out upon his desk.

VETERAN PILOT KILLED

Walsenburg, Colo., May 1.—(P)—James G. Montijo, veteran pilot who was one of Amelia Earhart's first instructors, was killed today when a Pueblo to El Paso mail and passenger plane he was flying alone crashed in attempting to make a forced landing near here.

RELIEF FUND EXPENDITURES TO BE PROBED

Investigation Ordered By United States Senate

By W. B. Ragdale,
Associated Press Staff Writer.

Washington, May 1.—(P)—Senate order for an inquiry into relief spending capped a series of developments today as President Roosevelt gathered the material to give official life to his four billion dollar work organization.

Only rich men can afford more than one wife, he said.

Los Angeles, May 1.—(P)—Sheiks Being Forced To Reduce harems

Los Angeles, May 1.—(P)—Sheiks of Algeria are just beginning to feel the world-wide depression and as a result have cut down on their harems, Dr. Marcel Carret, prominent French physician of Algiers, said today as he stopped here on a world tour.

Only rich men can afford more than one wife, he said.

20,000 AUTO WORKERS IDLE THRU STRIKES

Labor Representative Says Situation Is Serious

Detroit, May 1.—(P)—With nearly 20,000 automobile workers idle between strikes and shutdowns in the General Motors-Chevrolet Plants of Ohio, Wisconsin and Georgia, Edward F. McGrady, first assistant secretary of labor marked time here to-night, waiting to confer with labor leaders Thursday on their proposals for peace in the motor car industry.

The situation is serious," said

McGrady who was sent here by Secretary Perkins to direct the government's effort to settle labor troubles in the Toledo plant of the Chevrolet Motor Co., where the key strike is being in progress for more than a week.

"I can do anything until I have a chance to talk to Francis J. Dillon and learn what the labor organization wants. I expect to see Dillon Thursday morning."

Dillon is an American Federation of Labor organizer. He is reported to have been in Washington for several days conferring with William Green, president of the federation.

McGrady said his opinion that the situation in the auto labor field was "serious" was based on additional reports of General Motors subsidiary plants closing down for lack of Chevrolet transmission units which were manufactured in the Toledo Chevrolet plant.

Four more plants announced closing tonight. The Fisher Body Co. and Chevrolet plants in Atlanta shut down, affecting about 2,000 men. The Fisher and Chevrolet plants in Janesville, Wis., were also closed by the management for lack of transmission work. The Janesville closing affected 2,600 workers.

The oft-smiling Smith & Edby Co., at Fort Smith, Ark., employing 240 men, was closed. The management said the auto plants closing in the middle cut off a demand for body parts.

The strike and shutdown situation was also affecting other industries supplying materials to motor car parts plants.

Capone Mob Is All Burned Up

Chicago, May 1.—(P)—Indigent survivors of the old Capone mob today saw the first copies of "Victor Hastings" mural painting "the history of bootlegging," and are they burned up!

The painting, they said, was swollen, that was, insofar as a gangster could be an art critic, but look at

the mural depicts Al Capone in the center with a great big bloodstained shirt on his knee and displaying quite three other men and two women.

The alleged confession followed a hectic period in which police, firemen, American Legion members, and apartment house janitors joined in emergency patrols to halt the series of early morning blazes.

Following the arrest of a 13-year-old suspect, crippled Edward Malloy, several days ago, officials believed the firebug was in custody, but fires broke out anew in half a dozen buildings.

The confession, Harding said, was first questioned several days ago with three other men and two women.

DIES FROM INJURIES

Belleville, Ill., May 1.—(P)—Miss Mary Garvin, 50, a teacher in the Mascoutah, Ill., high school, died today in a hospital here from a fractured skull suffered when she was struck by a motor car this morning while crossing the street in Mascoutah.

The driver of the automobile, the Rev. John Durell, evangelical minister at Darmstadt, Ill., was not arrested. Witnesses told officers that Miss Garvin, who formerly lived in Champaign, Ill., stepped in front of the machine which was traveling about 20 miles an hour.

DOUBLE MURDER SUICIDE

Los Angeles, May 1.—(P)—Hollywood's strange triangular shooting was branded a double murder and suicide today by a coroner's jury after it heard Mrs. Virginia Bolte, wife of one of the victims, describe her slayer as a psychopathic type and deny that money was responsible for the crime.

The jury returned a verdict that

Paul Ivar, Hollywood dressmaker, and Henry E. Bolte, law instructor,

were shot dead by Howard Howard, naval reserve ensign, who then com-

mitted suicide.

When Is a Secret News?

The uproar caused by the revelation that army generals want to build an airbase near the Canadian border and seize French and British islands as a war strategy may have been the spilling of military secret beans, but to the country at large it was news. President Roosevelt spoke sharp words to Chairman McSwain of the House Military Affairs committee, threatening to censor information given the committee if it couldn't be kept quiet otherwise. The government hastened to say that the making of war gestures toward friendly nations was not "the policy of the administration."

As to the censoring of news about military matters, in most cases it is advisable. Altogether too much information leaks out, and in some cases the Departments of War and Navy are directly responsible for the leaks. For example, Congress is threatening drastic action because the Electric Boat Co. has been in the habit of getting blueprints of new submarines from the Navy yards. Plans worked out in naval laboratories are supposed to be kept secret. The company in question builds some subs for Uncle Sam, but it also does the same for foreign countries. That sort of news should be kept within government circles and used only for the nation's defense.

But the fact that army aviation experts wanted to build an air base near the Canadian border, which has never had a fortification on it, is of interest to the public. Such an act might mar the long record of neighborly relations between the two countries, which the people of both countries want to continue. The declaration of policy by the State Department clears the atmosphere. As for the seizing of French and British islands, peaceful relations could hardly be improved by the expression of such thoughts. Grabbing Jamaica and Bermuda would only serve to glut the American market with ginger and onions.

Our Impoverished Schools
From The Republican-Times
Ottawa, Ill.
Certain Illinois impoverished school districts are turning out impoverished boys and girls because of a lack of sufficient funds to meet the school requirements of an enlightened age, and the residents of those districts understand they are whipped. They have almost given up the battle for a modern school law that will make it possible for every boy and girl in the great state of Illinois to have an equal chance at learning.

Fine examples of inequality are to be found right here in LaSalle county. Take the Meyer school district, for instance, where there are but three pupils and property having an assessed value of \$161,155. That means the district by taxing itself to the limit can collect taxes equal to \$538 per pupil per year, while in the Gage school district in Brookfield township, thirteen miles southeast of Ottawa, there are 21 pupils, and property assessed as \$163,550, or the possibility of a school fund equal to \$77,88 per year per pupil.

Four districts in four other counties of the state, have a total of 225 pupils, with a combined assessed property value of \$195,123, or an average of only \$8.67 per pupil per year.

Illinois takes pride in its school system, but this pride is without foundation if we are to give consideration to some of the lowly districts. We brag about our great state university, when we are making it next to impossible for boys and girls of certain districts to gain enough elementary knowledge to be eligible to university enrollment.

Our trouble is found in the fact that residents of the richer districts are satisfied, and have no time and no inclination to lend a helping hand to starving districts and to unpaid and underpaid teachers, and find contentment in chanting "all is well with Illinois schools."

You will be told that the state of Illinois collects something more than \$10,000,000 annually for distribution to its schools. But if you will look into the matter you will find that Illinois is delinquent in that fund approximately \$15,000,000.

Our school house may not be on fire. But our neighbor's school is belching smoke and we should do something about it.

New Boxing Bout

Six Italian fighting planes recently took part in a "boxing" match, with a Nazi Germany plane as a sparring partner. The German had flown across Austria or Switzerland and over the northern Italian air base. Two long range cameas were found in the plane, and the pilot was in civilian clothes. The Italians figured his visit boded no good.

He was forced to land when six Italian planes "boxed" his ship. There were no shots fired, but the German was afraid there would be. He preferred a forced landing to a crash. He took the count, rather than be knocked out. It was six to one in the

last round, as the German circled the field.

This ends another exciting spy yarn, with its plot thickened by the general jittery feeling all over Europe. Mussolini's air scouts got their man and his cameras. The German found that making an air map was not as easy as his Nazi employers had led him to believe. He had not figured on being the victim of a battle royal.

Patience or Endurance

"Be patient," Secretary Roper told representatives of the National Chamber of Commerce, as that body launched a few criticisms of the New Deal. Saying that we are still in a "period of readjustment," the administration Commerce Secretary asked the business interests of the country to call off the dogs.

But that is exactly what business has been doing for two years. Patience has been the watchword, upheld by the hope that the immense sums being used to prime the pump would eventually do what they were being spent to do. But with the proposal to spend more billions on "made" work, business figures patience exercised any longer would be little more than endurance or toleration of a program that does not appear to be successful.

Consequently, it is likely Mr. Roper's plea will go unheeded. Business knows it must pay the bill government is piling up, and that the burden of debt will continue for generations unless something is done to check public spending. Business is therefore in a fighting mood and is bringing into its battle columns the entire employing class and the workers who are still on the job and who must bear the brunt of the tax burden.

So They Say

Not all the biochemists in the world can explain how the vegetable, with a sunbeam, a few quarts of water, and some carbonic acid gas, can make a bushel of corn or a peck of potatoes.

—The Rev. Julius A. Nieuwland, Notre Dame University.

Only the most naieve sort of person would believe that people give contributions to a political party just because they want to play Santa Claus.

—Francis W. Poulsen, Ohio Democratic chairman.

The Democratic party has gone to collectivism, bureaucracy, and finally to state socialism.

—Representative Hamilton Fish, Jr. (Rep., N. Y.).

I would rather be a beggar in rags eating a dry morsel than a sleek, pampered, well-fed, servile hireling, goose-stepping to the whims of a dictator or despot.

—Rabbi F. N. Isserman of St. Louis.

Lobbies Block Program

Nobody has been surprised to see a large pressure organization such as the American Legion assure the passage of some bonus legislation this session, though it's still a toss-up whether the A. F. of L. can push through such an advantageous measure as the Wagner labor disputes bill.

But conservative lobbies helped hold up the work-relief bill for months, and, to a minor extent, at least, modified the executive's program.

A series of lobbies is fighting over conflicting programs for the renewed NRA.

Power Trust lobbyists have sold the idea almost generally that the holding company bill, a Roosevelt pet, will be drastically modified before it becomes a law.

The food and drug bill, designed to protect consumers and favored by the White House, has very likely been ditched—by patent medicine lobbyists and representatives of food and other industries who seek to emasculate it by amendments.

Snags in Every Direction

The AAA amendments are regarded as vital to AAA's continuance, but lobbyists for food industries and farmers have made a football of them.

Behind The Scenes In Washington

A Hefty Roosevelt Swing at Lobby Locusts Is in Order . . . Davis Exposes Foes of New Deal Legislation . . . Liberty League Chisel Has Billions Back of It.

By RODNEY DUTCHER
Journal and Courier Washington Correspondent

Washington.—Don't be surprised if President Roosevelt stands up on his hind legs some day soon and publicly takes a hefty swing at the locust swarm of lobbyists which infests Washington.

The lobbyists and the interests they represent are responsible for the tieup of the New Deal program in this session of Congress. The people last November gave Roosevelt the largest party majorities in history, but the special privilege group has had almost equally astonishing success in its attempts to stymie the president.

Some White House advisers would have Roosevelt slash out at the lobbies and the motives and forces behind them. They point to the reply of AAA Administrator Chester Davis to the American Liberty League's attack on the proposed AAA amendment.

The Davis statement was especially illuminating and important because the league has issued pamphlets attacking virtually every important progressive measure proposed this session.

For some time Davis has been accused of bowing to the lobbies of the food processors and distributors and to many equally selfish farm organization lobbyists.

Davis Exposes Foe
But Davis said:

"If a more powerful organization of special interests has ever been massed against any legislation in the history of this country, I have never heard of it."

The American Liberty League's executive committee and advisory council includes executives or representatives of meat packers, power companies, textile mills, munitions makers, large bankers, public utilities, corporation law firms, food processing and distributing corporations, steel companies, railroads and other large corporate enterprises.

"An article in the Chicago Journal of Commerce on January 10 stated that the Liberty League is 'under control of a group representing industrial and financial organizations possessing assets of more than 37 billion dollars.'

Something of the same sort from the president might go a long way toward furtherance of his pet measures.

That is What the Chain Letters Kindly Request

Some of the "send a dime" letters have found their way to Jacksonville. A number of local citizens report getting these communications which have the characteristics of a crossword puzzle, an old-fashioned lottery, the friendly chain letter and a first-class skin game.

In fact, the "send a dime" letters haven't been fully classified by the U. S. postal department, but it is known that Uncle Sam has turned thumbs down on the proposition. There have been numerous arrests of persons sponsoring the "fad." Uncle Sam apparently believes that someone gets hooked.

The missives received by Jacksonville residents came from several cities, including Quincy, where the presence of a large volume of such mail is being investigated. The receiver is supposed to place his own name on a list, write in the names of five friends, enclose a dime and keep the ball rolling, or the dimes pouring in upon some fortunate soul.

Usually, authorities say, the list of names is padded with fictitious names or those of relatives of the instigator. It all works out very well for someone if everyone does his share.

The whole plan resembles Dr. Townsend's revolving pension scheme. It may sound all right, but something is wrong.

Here is a copy of one of the letters received by a Jacksonville citizen yesterday:

Ashland Seniors to Present Class Play Next Friday Night

"Much Ado About Betty" is
Ready for Production
with Large Cast

Ashland—The Senior class of the
Ashland Community high school will
present the annual class play, "Much
Ado About Betty," in the High School
auditorium, Friday, May 3 at 8 p. m.
The cast of characters follows:

Lim Leonard, Betty's one best bet—

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in
the Morning Rarin' to Go

If you feel sour and sick in the world
like you do now, take a little of Calomel
water, oil, lazzative candy or chewing gum
and expect them to make you suddenly sweet
and buoyant again.

If this bile is not flowing freely, your food
doesn't digest. It just decays in the bowels.
Gas blows up your stomach. You have a
thin skin and your complexion is not
good when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's
Little Liver Pills. Look for the name Carter's
Little Liver Pills on the red label. Present a
scrapbook to your druggist. © 1931 C. M. Co.

It's the good old CARTER'S

LITTLE LIVER PILLS to get these two
pounds of bile flowing freely and make you
feel "up and up." They contain wonderful
minerals and vegetable substances.

College Art Department to Feature Work Done by Miss Louise Boring

An interesting exhibit of Illinois
College art work will be on display
next week at the Straw Gallery,
continuing through the month of May.

H. H. Dasey, head of the Illinois
College art department has announced
that all plans are complete for this
showing and that the exhibit will
include work in his department since
its inception at the first of the year.

Featured in the exhibit will be the
work of Louise Boring, graduate stu-
dent in the department. Her exhibit
will consist of pen and ink drawings
and dress designs. Miss Boring's work
is well known to I.C. students since
she acted as art director for the Rig
Veda while she was in school.

Helen Kittner will show a group of
sculptured horses, charcoal drawings
and linoleum prints. Ray Becker's
contribution will consist of sculptured
dogs and costume designs for Shake-
spearean plays. Mr. Becker will also
give a talk during the week on mod-
ern trends in art. Other exhibitors
will be Ray Kelly and Don Hinkle.

Mr. Dasey will also contribute some
of his work to the exhibit. Included
in this group will be a portrait of
President Jaquith, a large mural de-
picting modern civilization, and mis-
cellaneous water-colors. He will also
show a group of model sets intended
for commercial work.

The stage design classes will be
represented by Lenore Sperry and
Edith Elliott, who will exhibit several
model sets.

Corn Thief Pleads Guilty to Charges

Lloyd Howard Must Spend
at Least One Year in
Penitentiary

Lloyd Howard of Pittsfield, who ad-
mitted making at least one foray into
Morgan county for the purpose of
stealing corn, has been sentenced to
a term in the Southern Illinois peni-
tentiary at Chester. The term is from
one year until duly discharged by law.

Howard asked probation and final ac-
tion on his plea has not been taken.

Howard went into circuit court at
Pittsfield and entered a plea of guilty
to having stolen corn in Pike, Cass,
Sangamon, Fulton, Mason and Morgan
counties. He was accused of having
taken about 50 bushels of corn from
the Wemple farm east of Waverly.

A warrant was sworn out here but
was never used, as other counties had
preferred charges.

After Howard was arrested he was
questioned at Pittsfield by Sheriff
Kenneth Woods of Morgan county and
other officers. He admitted taking
the corn at Wemple's farm.

YOU'D PROBABLY LIKE A NICE SLICE OF THIS HAM . . .

... and it has a place in your diet, too. But for food economy we're mentioning the fact that, due to water content and waste, 2 pounds of ham hold the same amount of actual food as a pound loaf of our bread, spread with butter . . . and the bread costs much less.

Ask Your Grocer

Food which has little water or waste contains a larger percentage of actual food content which the body can absorb and use in making tissue, regulating body processes, and creating heat and energy.

My Cookery News Notes

By LUCILE HARRIS

Editor's Note: "Cookery News Notes" is a new feature of this newspaper and will be followed with interest by our women readers. The writer, Lucile Harris, staff member of the National Livestock and Meat Board, recognized authority on cookery of all kinds and especially meat cookery and the planning of meals around the meat course. Experimental cookery has developed a good deal of new information about cooking meat, which is contrary to old ideas. This series of articles will give our readers this new information in helpful form, and will also give a series of excellent recipes and suggestions for serving the meat course of the meal.

EXCITING NEW FOOD THRILL

Bananas are a versatile food, for they may be used as fruit when ripe, as a vegetable when green, and are most delicious served in combination with meat. I do hope you will try serving cooked bananas as an accompaniment for the meat course, soon. I'll guarantee that you will become one of the ever-increasing group of epicures who consider the combination a real delicacy. The slightly tart flavor of the cooked banana helps to bring out the natural flavor of the meat dish.

You may be interested to know some of the various ways in which you may use the two together. In using this combination of bananas and meat you include in the diet the proteins, minerals and energy-giving qualities of the meat with the vitamins, carbohydrates and quick energy qualities of the bananas.

For cooking, select bananas which are green-tipped, rather than at the more fully ripened stage.

Broiled Steak with Bananas

1 sirloin steak
4 bananas
Butter
Paprika
Salt
Pepper

Have the steak cut from 1 to 2 inches thick. Preheat the broiler to 305 degrees F., have the regulator set at 500 degrees F. Place the steak on the center of the broiler rack so that there is a distance of about 3 inches between the flame and the top of the steak. When the steak is nicely browned on one side, turn and brown on the other. The steak will be done when the second side is browned. Only one turning is necessary. For a 2-inch steak, allow thirty-five to forty minutes to be medium done.

Cut bananas into slices and brown in butter until a golden brown. Serve around the steak.

Cushion Style Pork Roast with Banana Dressing

Have the bones removed from a shoulder of pork. Fill the cavity with banana stuffing. Sew up the opening, place on a trivet and roast uncovered at 350 degrees F., allowing 25 to 30 minutes to the pound. In carving, cut down through the roast, serving both meat and dressing.

Banana Stuffing

1½ cups bread crumbs
1½ cups diced bananas
½ cup apple sauce
1 tablespoon lemon juice
½ cup meat stock
½ teaspoon salt
Pinch cayenne

Moisten bread crumbs with meat stock. Add other ingredients and mix well.

Frenched Lamb Chops with Bananas

4 small or medium bananas peeled
4 frenched lamb chops
2 tomatoes, cut in halves crosswise
Arrange lamb chops on rack of broiler. Broil in hot oven. Turn meat at end of 6 minutes and arrange bananas and tomatoes on broiler, continue broiling 6 more minutes, or until meat is done, and vegetables are brown. Ground beef, sausage or steaks may be used in place of lamb chops if desired. Meat should be at least 1 inch thick. Serves 4.

Bananas and Bacon

6 bananas
1 pound bacon
Roll half lengths of peeled bananas in strips of bacon. Fasten with a toothpick. Broil or bake in a hot oven (450 degrees F.) about 15 minutes, or until bananas are tender and bacon is crisp. Baste at least once during the baking.

Banana Meat Loaf

2 pounds ground beef
4 slices bacon
1 cup celery, finely diced
2 eggs, slightly beaten
1½ cups cracker crumbs
3 bananas, finely diced
1 tablespoon lemon juice
½ cup apple sauce
Cayenne
Salt and pepper
Mix ground beef, celery and 1 cup

Jacqueline DeRochi Has Been Named as College Prom Queen

Taylorville Girl to Reign Over Festivities When I.C. Holds Dance

Miss Jacqueline De Rochi of Taylorville has been named Queen of the Senior Promenade to be held at Illinois College on Friday evening, June 7. Miss De Rochi was selected from the girls of the Senior class for this honor, which comes to her after four years of outstanding activity on the campus, where she has shown exceptional ability in many offices.

Besides serving as president of Gamma Delta Literary society, she has acted as secretary of her class this year and was a member of the Athletic Board of Control and of the Women's Inter-society Board. In addition, Miss De Rochi has displayed unusual academic talent.

This event is one of the high lights of the social season at the college and many attractive plans are being made to make this occasion one of the best Senior Proms ever given on the Hill.

Walter Bruno Meyer of Staunton, a member of Phi Alpha society is the chairman, and he has announced that a prominent orchestra will be selected for the dance.

Among the more well-known bands who have been contacted are: Rich and Day and his orchestra, who have played at the Statler Hotel Roof Garden and the Sylvan Club in Arlington, Texas; Hal Reed and his band, remembered for their unique broadcasts from the Greystone Ballroom in Cincinnati; Vic Victor and his St. Louis orchestra, who have played at many of the popular country clubs throughout the middle west and at several dances at Washington and St. Louis universities.

Members of the committee who will assist Chairman Meyer are: Miss Neva Burnett of Carmi, Sigma Phi Epsilon; Russell Davis of Nilwood, Sigma Pi; Ann Fancher of Jacksonville, Gamma Delta; Cecil Giffen of Jacksonville, Phi Alpha; Ralph Gender of Arenville, Pi Pi Rho; Miss Mildred Rutherford of Jacksonville, Chi Beta; Theodore Smedley of Waycross, non-society, and Donald Wilson of Edwardsburg, Gamma Nu.

As yet, no place has been selected for holding the dance.

Child Health Day Observed by Club

Ashland Women Convene at School for Program of Health and Welfare

Ashland.—The Ashland Woman's club held the regular meeting Tuesday afternoon in the sixth grade room of the Ashland grade school. The program was sponsored by the Public Health and Child Welfare department, of which Mrs. Anna Brownback is chairman, and was arranged by H. W. Trimpe, principal of the grade school, and Mrs. Arthur Colburn, supervisor of music.

The program follows:

Song—Sixth Grade.

Song—First and Second Grades.

Health story—Seven First Grade pupils.

Health play—Third Grade.

Two songs—First Grade quartet.

Lesson in physical education—Fifth Grade.

Play—Fifth Grade.

Music—Sixth Grade.

The Men's club of the Christian church met Monday night at the home of Bert Way. The program was given by Mrs. Fred Prior, who explained her interesting display of Japanese articles. About twelve men were present and refreshments were served at the close of the program.

P.T.A. Meeting Friday

The Parent-Teacher Association will meet Friday evening, May 3, at the Ashland grade school. An interesting program is being arranged with a play by the Fifth grade, music by the Sixth grade, and talks by local people.

The Apollo club, a male quartet from Illinois Wesleyan University, Bloomington, will present a program at the Ashland High school Friday morning at 11 o'clock. This is one of the many splendid programs which have been presented to the local high school students this year and which the townspeople may attend. On Monday a representative from St. John's hospital, Springfield, will speak on the value of nurses training as higher education for high school graduates.

WIFE BRINGS SUIT, ASKS MAINTENANCE

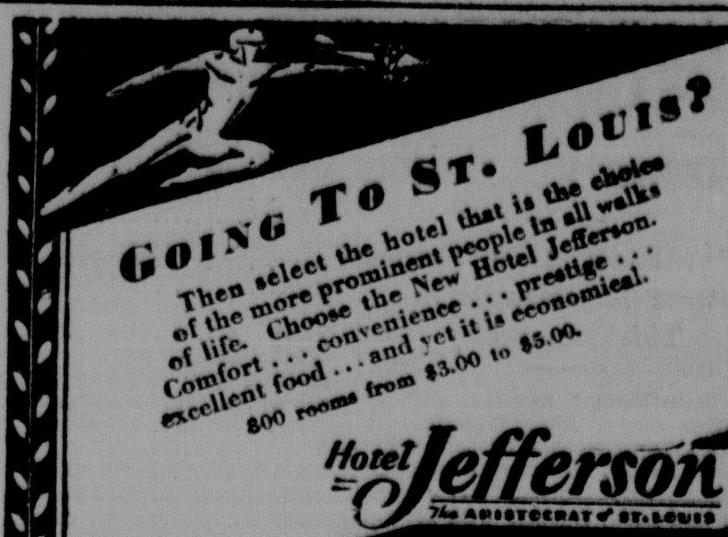

A complaint for separate maintenance was filed in circuit court Wednesday by Mrs. Reba Mitchell against Thomas Mitchell. The bill states that the couple were married April 8, 1923, and lived together until March 31 of the present year. The complainant alleges that her husband separated from her without cause. They are the parents of one child.

The suit was filed by Cari E. Robison as Mrs. Mitchell's attorney.

Stock Market Indifferent

By Frank MacMillen
Associated Press Financial Writer

New York, May 1.—(P)—Indifferent is the best word to describe the performance of stocks in today's session. Aside from a few specialties the general list was mildly reactionary.

Turnover in the stock exchange was 820,968 shares, and the Associated

Press average for 60 stocks was off 1

of point at 39.3. The utilities gave

a shade better performance than the

general average, but even here the

gains were mostly of minor character.

Leading staples did nothing to add

inspiration to the speculative spirit.

Wheat at Chicago ended 1 to 12 cents

a bushel lower, and corn was off 1 to

1 cent. Cotton finished down 3 to 25

cents a bale.

Bonds were a little better than stocks, except the rails, where the previous day's mild recession continued.

Chrysler provided the outstanding corporate news of the day, but the intelligence did not arrive until after the close of trading. Directors of the corporation declared an extra dividend of 25 cents a share, and revealed that first quarter profits had been equal to \$2.12 a share, compared with 76 cents in the initial period of 1934. The stock, which was fairly active during the trading period, ended a shade lower at 374.

Silver shares were again reactionary as the New York price of the white metal declined 1 of a cent an ounce at 75 cents. The treasury failed to make any change in the 77.57 cents figure paid for domestic silver. Such leaders in the group as American Smelting at 42¢, Cerro De Pasco at 58¢ and U. S. Smelting at 1115 lost fractions to a point or so each.

Need \$125 to Send H.S. Debaters to Ohio; Plan 2 Day Campaign Here

With a goal of only \$125, two agencies will unite today in a two day drive to secure money with which to send the Jacksonville high school debating team to the national debating tournament at Kent, Ohio, in an attempt to win the national high school debate championship. Investigation at the high school yesterday revealed that no further funds are available for the purpose of defraying the expenses of the team and immediately the Chamber of Commerce and the Journal and Courier company joined hands to secure the funds needed.

H.S. JUNIORS TO GIVE PROGRAM

Popularized Science Demonstration To Be Presented Next Monday

Monday morning, May 6, the High School Junior Class will bring Glenn L. Morris before the student body in a program of popularized science demonstrations. The program will be in the nature of a pay assembly for the benefit of the 1936 yearbook fund. John Agger is dean of the class and has engaged Mr. Morris for his appearance.

The program is one designed to aid in bridging the gap between the scientist in his laboratory and the general public. It consists of a snappy series of startling, mysterious, unbelievable, and seemingly magical demonstrations. Mr. Morris brings with him a great amount of equipment, odd hand-made devices by means of which he creates startling phenomena. The explanations are remarkably brief and understandable as Mr. Morris is a specialist in putting things within reach of his audience with a touch of humor that keeps the program going at high pitch. The demonstrator has appeared before numerous high schools and colleges of the United States and comes to Jacksonville highly recommended.

The program will be open to high school students and will commence at 10:25 Monday morning.

OXTOBY MAKES CHURCH REPORT

Presbytery Summary Shows 49 Churches In District

Dr. F. B. Oxtoby, stated clerk of the Springfield Presbytery, in his annual report to the stated clerk of the Presbyterian General Assembly, Wednesday, reports that there are 49 churches in the Presbytery with 89 ministers on the Presbytery roll, some of whom are teachers, foreign missionaries and editorial secretaries.

These 49 churches have a total membership of 13,646 and have 10,980 in the church school. The five churches with the largest membership are Springfield Third, First and Westminster and Decatur First and Westminster. Presbyterian church membership in Decatur numbers 2,029; in Springfield 5,977; and in the three Presbyterian churches in Jacksonville 1,143.

The churches of Springfield gave in the year ending March 31, 1935, to benevolences including the boards of the church—foreign missions, national missions, Christian education and pensions, \$21,621, an increase of \$2,037 over last year. Local church expenses amounted to \$131,924, an increase of \$10,000 over last year.

MISS SARAH MASON TO BE SOLOIST ON SCHOOL PROGRAM

As soloist for the High School Choral Concert and Crowning of the May Queen tomorrow evening in the school auditorium, Miss Linda Mae Hopper has been fortunate in securing Miss Sarah Mason of Chicago. Miss Mason is a former resident of this city, being the daughter of Dr. and Mrs. Mason who resided on West State street. While in high school here, Miss Mason was outstanding in the various musical activities. She has lived in Chicago for the past few years and has continued her study of music, advancing rapidly. In a recent Chicago concert, she sang on the program with Richard Bonelli, one of the foremost baritones of the Metropolitan Opera Association. In the last Chicagoan Music Festival held at Soldiers' Field, Miss Mason won first place in the soprano division of the contest. This is one of the highest honors that can be bestowed upon an amateur singer.

Miss Mason has announced her program tomorrow night as follows:

First group—Liszt's Parola (Aida)—G. Verdi.

Second group—Songs My Mother Taught Me—Dvorak.

Was I Not a Blade of Grass Upon the Plain—Tschaikowski.

Memory—John Densmore.

Floods of Spring—Rachmeninoff.

J. N. CONOVER NAMED TO OFFICE BY BAKERS

Bloomington, Ill., May 1.—(P)—Peter Edder of Chicago was elected president of the Associated Bakers of Illinois today at the concluding session of a two day convention here. He succeeds James N. Conover of Jacksonville, who was named vice-president.

Grover Patton of Decatur was re-elected treasurer of the group, and W. H. Gronemeier of Bloomington and J. W. Johnson were elected to the board of directors. The board will select the city for the 1936 convention at a later meeting.

Winchester, May 1.—The newly elected officers of the city of Winchester were sworn into office at the first meeting of the new council this evening. Mayor H. W. Leib retains his chair and likewise do Richard Ryan and W. E. Harper, aldermen in the first ward, Verlin Summers and George Patrick, aldermen in the third ward, and P. E. Markille, city clerk. R. R. Funk and Joseph Crabtree were sworn in as the newly elected aldermen in the second ward and James A. Roose as city treasurer to succeed R. R. Funk.

The annual report of the city treasurer, R. R. Funk, was filed with the Council and it showed the city's finances to be in the best condition they have been in a number of years. The report showed a balance in the treasury of \$162.82 as compared with a balance of \$83.07 when Mr. Funk took office two years ago. However at this time there were outstanding some \$100.00 in unpaid bills and city warrants. All of the current bills of the city are paid in full and there are no warrants outstanding. This condition exists despite the fact that the city received about \$200.00 less tax money during the past year than it did a few years ago when property valuations were higher and there were not so many delinquent taxes.

SUMNER WHITE DIES IN IOWA

Former Resident Of Morgan County Passes Away

Tuesday

Word has been received by friends in this city of the death on April 30 of Sumner White at his home in Orient, Iowa. He was a member of the class of 1909 of Illinois College and was the son of Robert White '99.

He was born in Knox City, Missouri on May 10, 1882. The modesty, diligence and high intelligence of the father were characteristic of the youth in college and afterward in business. He was valedictorian of his class. Both father and son were members of Phi Alpha society.

Soon after leaving college, Mr. White became a grain merchant and became master of the business and a recognized authority among those engaged in the same calling. In January 1907 at New Salem, Iowa, he was married to Fern Doane, who survives him. His father died May 15, 1930.

For a long period of years, he suffered from an ailment that took him to the dry climate of the southwest during the winter months, but the determination not to be conquered by his infirmity was manifested in the successful conduct of his business in spite of his handicaps. The least self assertive of men he gained and held the respect and confidence of his associates of what ever age.

DONALD NEILL AND RUBY RICHARDSON WEDDING ANNOUNCED

Arcadia, May 1.—Announcement has been made of the marriage of Donald Neill to Miss Ruby Richardson, of Vienna. The wedding occurred during the latter part of March. Mr. Neill is the son of Mr. and Mrs. Claude Neill, of Arcadia, and lived for a number of years in this community. A large group of relatives and friends extend their good wishes to the newly-married couple.

LIONS CLUB MEMBERS ARE ENTERTAINED BY PICTURES AT MEET

Restoration Of Greenfield Village Is Shown At Session Of Clubmen Wednesday Night.

The members of the Lions' club were entertained last night by pictures of Greenfield Village, the section at Dearborn, Michigan, where Henry Ford has erected restorations of old buildings and work-shops as a monument to great Americans who have been influential in forwarding the scientific progress of our country. The projection of the pictures was accompanied by a recorded explanation of each object shown.

One of the main features of the village is the Edison Institute. Here is a complete restoration of the home and workshop of Edison. The laboratories in which he conducted his greatest experiments in inventing the electric light and in improving the telephone are rebuilt correct to the slightest detail. Edison himself visited the Institute in 1929 and pronounced the restoration perfect.

Other interesting parts of the village are the Clinton Inn and the Waterford country store. These are reproduced exactly as the original. Many of the structures are not reproductions. In several cases it was possible to obtain either entirely or in part the original building.

The home of Stephen Foster and the office of Luther Burbank are also part of the village. Numerous other homes, shops and laboratories have been erected in memory of men who have greatly aided our advance but who might be easily forgotten by the modern generation if it were not for Greenfield village and Henry Ford's work.

The pictures were obtained for the club by George Lukeman, Jr.
